My conclusion about ITME Africa & M.E.:

The fair was very well organized, especially the evening event with the fashion show and the live music was terrific. There could have been a few more visitors overall, but I still had a few interesting conversations and was glad to be here.

Viresh Suryavanshi

Sunflag Textile and Knitwear Mills Ltd.,

Kenya

Thank you so much for choosing Kenya and inviting Sunflag for ITME Africa & M.E. The fair was very well planned and organized. Sunflag family had a very good opportunity to interact with many exhibitors. We got to know various market and technical aspects from them. This event really helped us to close very important business deals which will help us to remain more competitive in this market. I feel given an opportunity to yarn and fabric manufacturers or exporters would have added more charm to the exhibition since the potential for intermediate products in Africa is still high considering the nascent stage of the textile industry here. Last but not the least, we enjoyed electrifying musical performance and tempting dinner at social networking event.

Thank you once again.

Kenya hosts global textile and apparel industry players

Major players in the textile and apparel industry drawn India, Middle East and Africa have converged in Nairobi, Kenya, this week for the ITME Africa & Middle East 2023 summit and expo. The event, running from November 30 to December 2, 2023, has been organized by the ITME Society, a non-profit industry body formed in 1980 to serve as a catalyst for technological excellence and currently recognized as the backbone of textile engineering industry in India.

Being held at the Kenyatta International Convention Centre (KICC) in Nairobi, ITME Africa & Middle East 2023 targets the textile technology and engineering sector players. The event seeks to connect the global business leaders with their counterparts from Kenya and Africa.

Seema Srivastava, the Executive Director of India ITME Society said that the event, being hosted in Kenya for the first time, is an open and unique forum for all those involved in the textile industry value chain, including manufacturers, exporters, cotton farmers, investors, entrepreneurs, agent dealers, as well as distributors looking at opportunities to expand their business. In textiles or exploring diversification of their business into apparel.

"ITME Africa 2023 is a sure platform in selected, weaving, and reweaving the Textile Industry of the continent with innovative solutions from spinning, weaving, processing, and accessories segment. It has a wide range of innovative and sustainable solutions for eco-friendly and top-in-class textile chemicals and fibres," said Srivastava.

Kenya is encouraging partners to set up more factories and warehouses instead of exhibitions in the country since it has already established a favourable environment for foreign investors through supportive policies.

Speaking at a media briefing on the International Textile Machinery Exhibition (ITME) Africa and Middle East 2023, scheduled to start tomorrow, Industry Principal Secretary Juma Makwana said the partnerships should be in line with Kenya's vision of reducing and eliminating the importation of textile-related products.
